# LEGAL DISCLAIMER

It is important that you carefully read this legal disclaimer section. If you have any doubts, seek legal, financial, tax, or other competent law professionals' guidance. All of the information shown here is not intended to be exhaustive, and it should never be construed as part of any formal agreement.

We are confident that the material in this white paper is correct and current, and that all products, services, technical architecture, coin distribution, and corporate schedules are correct and current. Furthermore, all of this information may have been modified without notice, and it should never be construed as a binding advising agreement.

## **No Advice:**

This white paper obligates nobody to sign a contract or make a legally enforceable commitment to donate. There is no advice in this white paper, and it cannot be used to sell or solicit Trillions' purchase of our token, nor can it be used to construct a contract or make an investment decision.

## **Compliance with Tax Obligations:**

If any taxes apply to their transactions, the users of the Website are solely responsible for ascertaining this. Who pays what taxes is not the responsibility of the website's owners or authors.

## **Limitation of liability:**

For any loss or harm originating from this website's material, including written material, links to third-party sites, and data such as quotes and charts as well as buy/sell signals. MULTI MONEY will not be held responsible for any damages. Understand the risks and costs associated with trading assets on the financial market (digital or otherwise). ICOs, in particular, are one of the riskiest investment choices available to investors.

## **Investment risks:**

Because of the high level of risk, cryptocurrency trading is unsuitable for all investors. Before trading cryptocurrencies, tokens, or any other digital asset, you should carefully examine your investment goals, level of experience, and risk appetite.

## The Next Level Most Advanced Decentralized Earning Program

**We Are The Fastest, Easiest And Risk-Free Way To Be  
Financially Free**

The release of the token is based on Binance platform and meets all modern standards. Based on this platform, our token will be available for sale on various stock exchanges, crypto-currency. It is easy to integrate into third-party services, thanks to the new standard.

# SECURE PLATFORM

## THE MOST TRUSTED PLATFORM

A SECURE PLATFORM WHERE ALL YOUR ASSETS ARE SECURED AND PROTECTED!

### SECURE STORAGE

We store the vast majority of the digital assets in secure offline storage.

### PROTECTED BY SMART CONTRACT

All the coins are stored on our Multi-Sig wallets.

### TRANSPARENT

We are transparent platform where all your assets are secure and fully decentralized.

# WHAT DO WE OFFER?

**24/7 SUPPORT  
SERVICE**

**HIGHLY QUALIFIED  
TRADERS**

**FAST  
WITHDRAWAL**

**GUARANTEED  
FIXED INCOME**

# WHY TO WORK WITH US?

## **BLOCKCHAIN INFRASTRUCTURE**

Integrates blockchain technology to provide secure assets built on Binance

## **EASY TOKEN INTEGRATION**

It provides perfect integration to all Wallets, Exchanges, DEXs, and DeFi in its entirety.

## **GLOBAL SYSTEM AND SECURE**

An efficient global system covering all corners provides the best data security.

# HOW TO BUY

User selects  
Treydorex Token to  
purchase

Select the amount you  
want to buy!

Selects the  
currency to pay

Enter the address  
to buy Token

Then Select MMGT  
Marketplace for payment  
and proceed!

# A UNIQUE CRYPTO ASSET

## OPEN FOR GLOBAL PARTICIPANTS

- We facilitate the transaction and bring them closer to a wider audience. An added benefit of use is that it's completely decentralized, so trading can be done freely across borders.
- The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered, and enabled. It has no border so these can be used no matter where you are located globally.
- This also has a huge effect on international payment fees. Traditionally international transfers have much higher fees than domestic transfers and payments. International payments and transfers with crypto are the same as domestic.

## FREE FROM CORPORATE AND GOVERNMENT INTERFERENCE

- "MULTI MONEY" transactions have no intermediary institutions or government involvement, and the costs of transacting are kept very low. Additionally, any transfer happens very quickly, eliminating the inconvenience of typical authorization and waiting period requirements.

## SAFE & SECURE

- It is a safe and secure platform that is continuously improving the security of the system to ensure the safety of the platform.

# HOW DOES CRYPTO FIT INTO WEB 3.0?

Blockchain and crypto have great potential when it comes to Web 3.0. Decentralized networks successfully create incentives for more responsible ownership, management and content creation. Some of its most salient aspects to Web 3.0 include

**Digital Crypto Wallets** - Anyone can create a wallet that allows transactions and acts as a digital identity. There is no need to store your data or create an account with a centralized service provider. You have full control of your wallet, and often the same wallet can be used on multiple blockchains.

**Decentralization** - Transparent spreading of information and power among a huge collection of people is simple with blockchain. This is the opposite of Web 2.0, where big tech giants dominate vast areas of our life on the web.

**Digital economies** - The ability to have data on the blockchain and use decentralized transactions creates new digital economies. Thanks to them, we can easily price and exchange goods, services and content online without having to provide banking or personal details. This openness helps improve access to financial services and enables users to start earning.

**Interoperability-** On-chain DApps and data are becoming more compatible. Blockchains built using Binance Smart chain Virtual Machine can easily support each other's DApps, wallets, and tokens. This helps to increase the ubiquity needed to enjoy Connected Web 3.0.

## BINANCE SMART CHAIN

Binance chain was first introduced to the world by Binance in 2019. And from that point on, Binance has made sure to provide the fastest and most decentralized trading. Binance Smart Chain provides a full-featured decentralized development environment built on new Blockchain technology training.

Binance smart chain is one of the world's fastest blockchains. BSC is well known for its lightning-fast transactions. In a Binance smart chain, the blocks are made every 3 seconds, unlike Ethereum, which takes 13 seconds to create a block.

## Why choose the BSC

### INDEPENDENT BLOCKCHAIN

Even though it is a sibling blockchain of the Binance Chain, that doesn't mean that Binance Smart Chain has anything to do with it.

### ETHEREUM COMPATIBLE

Binance Smart Chain's smart contracts support and are compatible with Ethereum dApp.

### HIGH PERFORMANCE

Capable of settling thousands of transactions in seconds.

### LOW GAS FEES

BSC currently charges 5 Gwei on average for transactions, significantly less than Ethereum's 40 Gwei.

### NATIVE COMPATIBILITY

There is no communication restriction between BC and BSC even though Binance smart chain is not a layer two solution.

### SUPPORTS STAKING

The platform uses a proof-of-stake consensus model, specifically a proof-of-staked-authority (PoSA) model.

## What are P2E Games?

- Play-to-Earn or P2E Games are online games where players are rewarded with digital assets with real-world value. These rewards may come in form of tokens.

## Why Play-to-Earn?

- Play-to-earn is garnering more attention as cryptocurrencies become popular all over the world.

## Are P2E games sustainable?

- Yes, if done in a correct way. We have built an ecosystem where money doesn't only come from the new players but added additional sources of income.

MULTI MONEY is a digital metaverse where users can enjoy a hyper-visual experience enhanced by cutting-edge virtual reality and artificial intelligence technology. This opens an infinite realm of entertainment possibilities anchored on high-quality content, dynamic neural network integration, and advanced social mechanics, including groundbreaking AI-generated data. With interactive and immersive digital dynamics at its core, MULTI MONEY extends across multiple worlds, each functioning as a separate content hub for music, dances, mindfulness, virtual exchange, and connectedness. Multi Money's digital infrastructure allows users to access unused senses and unlock a unique content-creating experience using a vast set of tools in a metaverse that cannot ever be disconnected - there's no signing up, logging in or out, and no going offline. Seamless integration of real and virtual is further achieved through a digital economy and a decentralized marketplace of which token, the platform's in-currency, is the backbone. This gives MULTI MONEY users complete ownership over their creative journey within the metaverse. Tokens have been further integrated into MULTI MONEY to include the minting of non-fungible tokens (NFT), control over marketplace operations, and decentralized autonomous organization (DAO) regulation.

MULTI MONEY leverages the world's most advanced emerging technologies (VR/AR/AI) and the increasingly rapid adoption of mixed-reality technology to create a unique offering inside one single digital space where, through partnerships and collaborations with industry leaders, users are given the chance to enter an experience without parallel and rethink how they interact with each other and enjoy art.

## TOKEN ALLOCATION

**1 BNB = 2700 MMGT**

The platform is rapidly gaining popularity and is highly appreciated by the world's leading publications. A high trust rating and a confident development plan make our platform unique.

- 40% Pre Sale
- 30% Launch
- 10% Burn
- 10% Staking
- 5% Team
- 5% Development & Marketing

# ROAD MAP

## PHASE#2 MARKETING

- Influencers Engagement
- Partnership Announcement
- Listing on Coinmarketcap
- Listing on Cointeract

## PHASE#1 CONCEPT

- Forming Socials & Building Community
- Website V1
- Token Launch
- Audit

## PHASE#3 MMGT PRODUCTS

- MMGT Exchange
- MMGT Wallet v1
- Listing on Bitmart
- Listing on Hotbit

## PHASE#4 FURTHER DEVELOPMENT

- Gaming Platform launch
- MMGT wallet v2
- MMGT NFT Marketplace
- Listing on Gate.io

# ROAD MAP

## PHASE#6 OWN ECOSYSTEM - 2

- Mainnet launch
- Centralized exchange launch
- Development platform for devs

## PHASE#5 OWN ECOSYSTEM

- Launch of MMGT Chain Testnet
- Finalise research for other Layer-1 chains
- Liquidity mining program

## PHASE#7 ECOSYSTEM FINAL LAUNCH

- Complete functional
- Blockchain Launch
- IDE Launch
- Listing on Binance
